Hold Tight!

Our mail bag is the only feedback we get from our readers (short of sales figures), so it's always good to hear what you like or dislike. And unlike other mags, we actually listen. You wanted the girls' stats brought back, so we did just that. You wanted to see wee hairy Veronica again, we got her back. You wanted big, busty V'ron again, we brought her back. Some of you want to see tights? Well, hit page 31, then! We know you like the way the magazine's looking, because you're kind enough to tell us. So keep the letters coming; we read every one of them!

PHONE FOR HELP

I'm a regular reader of your magazine Mayfair. I am very interested in some of your ladies and as a playboy I would like to have contact with some of your beautiful ladies.

I bought Volume 38 Number 5 and I spotted two beautiful ladies – Helen and Catherine. Would you kindly show me how to contact them or have their phone, address or email? I hope as a regular reader you will give me this opportunity.

Henry, email

Yes, certainly, Henry. We'll happily just hand over a model's phone number to you. In fact, why don't we give you a lift to her house? She won't mind meeting a complete stranger – besides, you're a playboy after all. Now get out of here before we have to give you a slap!

HEAD IN THE CLOUDS

I live in a high rise block of flats overlooking a park. I have a lovely view and a balcony too, but unfortunately I'm north-facing so I miss out on all the rays whenever the sun is out. I can go down to the park and sunbathe down there but it's not the same as being able peel off completely in your own little space. No awful white bits to glow in the dark.

Earlier this summer, though, I managed to talk the caretaker into allowing me to go up to the roof for an hour a day. Technically, no one's allowed up there for safety reasons, but Simon was good enough to give me access if I agreed to be careful and not to tell anyone else. So this is what I did. Two hundred feet below me people were in the park tanning three quarters of their bodies while I was on the roof baring every last inch of mine.

I was a little nervous stripping off completely at first, but soon realised that no-one – except perhaps the birds and the odd helicopter pilot – could see me, and soon I started getting a real thrill about being stark-naked outdoors. When my hour was up, Simon would give me a knock on the door, I'd get dressed again and then he'd let me down.

One day I was up there and the warm sun on my bare skin got me feeling pretty frisky, so I started fingering my pussy to bring myself a little light relief. As I stroked my tingling clit, I heard a noise coming from the direction of the door and quickly looked that way. The moment I did so, I heard steps darting down the stairs and suddenly I realised I'd been spied on – and by who. Only Simon knew I was up here and had keys to the door at the bottom of the stairs.

> **"A great spurt of spunk leapt from his cock and splashed all over my tits"**

I quickly covered myself with my towel and wondered how long he'd been there. I then wondered if he'd wanked himself off while he'd been spying on me and imagined his large hands stroking on his big hard cock while looking at me through the key hole. When I pictured him doing this my shock quickly turned to flattery and then to horn, and I rubbed my pussy with all of my fingers. This time I did it much more frantically, with my legs wide apart and I didn't stop until I'd come all over my knuckles.

I spent the next three days masturbating like this in full view of the keyhole and I made myself climax every time. I was exhilarated at the thought of someone spying on me and by the end of the week I found myself calling out to

Simon, telling him to open the door and come and take a closer look if he wanted. Simon didn't stir at first so I persisted and called to him again and finally he opened the door and stepped out. I was driving three fingers into my pussy in a froth of excitement and asked him if he could see everything okay. Simon knelt down between my legs and I opened them up a little wider and pulled my fanny apart in front of his face. Simon was a nice-looking guy in his late 20s, and though I didn't know him that well, at this moment I really hungered for his spunk.

"Wank off over me," I told him. "Go on, I want to see your cock."

"I rubbed my pussy with all of my fingers"

Simon pulled his stiff dick out and began waxing his up-turned length as he knelt between my legs. I reached out and stroked up and down his shaft and all over his balls as he yanked away, staring at my pussy. Then I felt a hand on my leg. I moved my fingers from my slot and allowed him to finger me as he pulled himself off and this felt so base and dirty that I came on his hand as he pumped his fingers in and out of me.

"Can I stick my cock in you?" he asked, so I told him he could, just for a couple of pumps.

Simon rubbed his hot dick all over my sticky wetness then angled it down and slipped it inside.

I looked at my pussy and watched intently as his eight inches thrust into my neat little triangle again and again.

Simon held my legs back as he pumped me and I pulled him into me and held him there, then released him and pulled him in again. I'd never known a fuck feel so unbelievably satisfying as this one before, and when I came for the second time a few minutes later I felt my juices squirt out onto Simon's balls and splash back against my thighs.

"Come all over me," I urged Simon. "I want to feel your cream on my tits."

Simon thrust into me a couple of more times then whipped his meat from my hole and aimed it at my chest. I stared at his swollen head impatiently as he wanked it harder and harder, then giggled with delight as a great spurt of spunk leapt from his cock and splashed all over my tits. I squeezed them together to pool as much as I could in my cleavage and Simon milked the last few drops directly onto my nipples.

"Lick it off," he told me. I could see he really wanted me to do it so I scooped a little up with my tongue and swallowed it down. It was slimy and warm and had a texture that reminded me of oysters, but I ended up licking up most of it from my breasts, then sucked the last of it straight from Simon's cock.

I don't think I would've got away with this sort of behaviour in the park. I hope all those helicopter pilots enjoyed the show.

THAT'S MY GIRL

The kind of girl I would definitely want to make love to would have to be Katherine (Volume 38 Number 6). I think she is an absolute babe and one that I'd love to fuck. She is so cute and has such a great body that my ultimate fantasy is to take her to a very posh hotel where we could have a large luxurious room with a double bed. Of course, it would have to be a five star hotel. Firstly, before heading up to our own hotel room we'd have an expensive meal – I mean you've got to treat her to a nice meal. Afterwards, we would then go to our room at the hotel and that's when it all starts, the moment that one can't wait for. I would fuck Katherine in all kinds of positions, whether it would be missionary, on top, or doggy style, I'm not fussy. As we are both undressed and get ready to make love, I would firstly get into the mood by kissing her on the lips and then kiss her all over and sucking on her gorgeous tits. I know that that's the sort of thing that'll drive her absolutely wild. Then, when she knows she is ready for it, she would put her arms around me and whisper in my ear telling me that she wants to fuck. Of course, being a gentleman I would fuck her very gently. Anyway, that is something that I would love to do with Katherine.

She's very sexy and one that I definitely fancy the knickers off.

Sam, email

You certainly are a gentleman, Sam – buying her dinner before screwing her brains out? A knight in shining armour indeed.

A TONGUE LASHING OFF SALLY

I've been reading Mayfair for as long as I can remember; you have the most beautiful women and the sexiest pictures, though the sections I love the most are the stories. These are great, and the first thing I turn to whenever the new issue comes through.

I enjoy them so much, that recently I thought I might try writing a few myself. I've had quite a few girlfriends in the past and some of the things we got up to were extremely filthy, so I put fingers to keyboard and relived a few old memories. When I told some of the girls about this they all urged me to print them off some copies and let them take a look, so that was what I started doing. I'd stayed friends with quite a few of them after we'd split, and my stories proved so popular that a couple of them even came around after reading them and fucked me for old time's sake – although not at the same time, unfortunately. Perhaps that's the letter I should write next.

The only problem with all this is that I don't have a printer at home; I have to email myself the files at work and sneakily print them off there. This was what I was doing last month when one of my letters went missing. I had no idea who'd picked it up but I was worried that if it was traced back to me I'd get into all sorts of trouble – or even lose my job. Just before lunch my boss's secretary called me into his office and I felt suddenly sick to my stomach. When I got in there, though, I found there was only me and Sally.

"Mr Fraser is out for the day and lucky for you he is. You printed this to my printer by mistake," she said, handing me the letter.

"I'm really sorry, please don't tell him, it won't happen again."

"I slid between her legs and nuzzled her pussy"

Sally told me to read the lines she'd highlighted out loud, though I barely managed to, I was so embarrassed. She was in her early 30s – eight years older than me – and very slim and leggy. I'd never thought of her in any sort of sexy way before because she was so prim and proper, but now she was making me talk dirty in front of her.

"Read it," she demanded. "You wrote it, surely you can read this filth?"

I coughed a couple of times then began reluctantly reading the passages indicated.

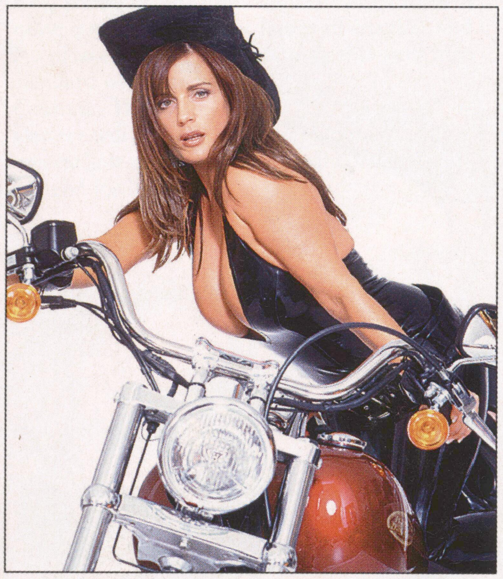
Last time we saw Elspeth, she was trying her hand as an estate agent (Volume 37 Number 11). Small wonder that she's now made the jump to modelling full-time. With curves like that, it was criminal of her to keep her clothes on.
In fact, she looks so damn good that we can almost forgive her for ever having been an estate agent.
She was terrible for keeping deposits…

For as long as most of us Britons dare to remember, centrefold siren Teresa May has been synonymous with coming off. ANDY KOCH achieves every man's dream by finding himself alone with the lady herself…

The Daring Buds Of May



Q. How long has it been since you started in the business?
A. Sixteen years. Long time, eh? Just a sec… you're trying to calculate my age!

Q. Possibly… So what led you into the glamour game, the carnival of carnality, the lewd and lascivious Labyrinth of Lust – the moral maelstrom of men's magazines?
A. I had some pics done for a portfolio that I fancied putting together when I was 17 (oh shit, there's the age giveaway!) As a consequence of people seeing the pictures I worked a few times at a portrait studio. At the time I was shacked up with this – well, pretty silly – bloke who thought that topless pics were "sleazy". So he burned them.

Q. He what? That's a shame. Because I would cheerfully shell out a huge wad of money for – erm, hang on: how old did you say you were? Forget that.
A. He tossed them in the fire grate and set light to them. He was the jealous type. A few incinerated titty pics weren't too much of a loss, though! I had plenty more taken when he and I split up and I fancied doing a few more photo-shoots. I had a friend in the glamour business and she introduced me to a photographer. He thought I was "suitable", in his words, and basically that was it… straight in at the deep end, featuring in men's magazines! I also got hold of a load of contacts from other models and, being a very motivated person, I started actively seeking out the jobs – and became very busy!"

Q. You've done so many shoots it must be hard to remember half of them, but of the half that you do remember, are there any stand-out moments?
A. You're right. I've done so many that it's hard to pick out a particular instance. I was shot recently for a rubber company…

Q. Dunlop. Right… of course – because of your pneumatic chest.
A. No! A company specialising in rubber clothing. It's called Inner Sanctum and the pics are on my website. Now that was a very good shoot! Plus I got to keep all the outfits, which was terrific, because I love rubber.

Q. You've built up a very loyal fan base in the UK. What do you put that down to? Apart from flashing your tits, cunt and bum, obviously. Leaving those things entirely aside…
A. I think because I get around. In a nice way, I mean. I put in appearances. I meet the fans. I like to think I'm very approachable. I do big events and small, cosy clubs. I've done table-dancing in America and England.

Q. How much mainstream work have you done?
A. Blimming loads! TV appearances. Even films. In the sci-fi movie *Event Horizon* I was the pin-up girl on the poster on one of the spaceship walls.

Q. On the hull or inside the spaceship.
A. Inside. As for television, I've been on *The Big Breakfast* a number of times; I turned up on *Top Of The Pops*; they've made documentaries about me; I've made commercials, and – best of all – made proper acting appearances in television programmes.

Q. So how easy has it been for you to make the switch from glamour to mainstream work?
A. Not too easy, to be honest. You see I will always be a glamour puss, I suppose. I mean, on a children's show I could never present…

Q. Well no…
A. Let me re-phrase that! I could never present on a children's show.

Q. Could you re-phrase it another time. Sorry, it's just that it still sounds a bit, you know, "suspect".
A. I mean a glamour girl like me, presenting a children's show… the two things just wouldn't mix. Even so, this fact doesn't – and will never – bother me. I'm happy with what I have done. I have done very well.

Q. Given all this mainstream work, how much longer do you think you'll keep whipping your panties off for the boys?
A. As long as the demand's there, I suppose!

Q. I wonder if we could come over all serious now.
A. Certainly.

Q. Because career catastrophe almost struck you down just last year, didn't it? I understand you were "stung" by a Sunday tabloid who levelled allegations that you were a call girl. Care to give us your side of the story?
A. It made me ill. The whole 'Teresa May: escort' type allegations thing was terrible for me. People may believe what they wish. I could fill pages of the magazine just explaining to you guys what happened, but I don't need to – the whole story was utter rubbish. I act as a Domme: but that's a very far cry from being a prostitute! I do fetish, but it's *NOT* a sexual service at all. Can we have that last bit in block capitals when this goes to print, please?! I am only interested in dealing with people who are into the domination/submission scene – not novices. You can find out all about it at my website www.msteresa.co.uk.

Q. Getting back to your chest – even though, to be fair, there's very little chance of avoiding it: you had a boob job a few years back – one of the best enhancements in the business, it has to be said. What made you go under the knife? Your original twin-set was pretty damned fabulous…
A. Well, thank you. I don't know why. I just wanted them bigger. A little bigger anyway. And firmer.

Q. People everywhere have been begging me to ask you this.
A. Fire away.

Q. What's the most outrageous thing you and your body have ever done?
A. Do you know, I can't really think! I have been such a naughty girl so many times. I have a brain overload!

Q. Evasive, eh? No, that's okay – I can relate to that. What kind of wild requests do you get from your submissives, then?
A. Ooh, boy: there are some strange ones! I ignore the sick ones. They love to worship my feet! Yes, feet! For my part, I love to wax blokes, clamp them, tease them! Why? Fancy a session do you, love?

Q. I would, but my cock was cut off in a fire and I'm late for a meeting. Tell me, Teresa, 16 years of photo-shoots, TV, even films… have you any ambitions left to fulfil?
A. Not many! At present I'm exploring what can be done online with my website. I'm always updating it with new pictures.

Q. So what's next for Teresa?
A. I'm going to college to study Interior Design.

Q. That's a good idea. Because you're very decorative. Which college? I may well tag along and matriculate. That might be nice.
A. No, it wouldn't.

Check out Teresa's ample charms for yourself at:

When the Ed misheard someone describe Cameron as a 'dirty girl', he booked her straight away. Just as well we like bikes here at *Mayfair*, because she's actually a dirt bike girl. D'oh! Although having said that, as the following pictures prove, there's nothing she likes more than a big single throbbing between her legs during a shoot. Unfortunately, she of course meant cylinders. Yet again, staff hopes are dashed…

Power exchange and submission. Two concepts alien to most swaggering Mayfair readers. But there are some out there who relish being ordered around by leather-clad dominas. ANDY KOCH meets up with a truly odd couple...

TOTAL CONTROL

Ninian Foster is a senior laboratory technician at London University's prestigious Institute of Mouse Studies, a research faculty in Euston dedicated to investigating possible biotech applications which might arise from vivisecting mice. Yet when I call to interview him about his sexual fetish for being controlled, I find him huddled in the doorway of his flat on Camden High Street wearing only a pair of raggy knickers, having just been booted out for falling behind with the rent.

"My landlord doesn't understand the being-controlled scene," he says, shivering but stimulated. "But being financially dominated – soaked, some might say – is all part of the hot submissive action."

This is shaping up to be my most entertaining assignment yet. "Stand up," I command him. "Drop your pants and bend over."

Then I parked my bike against his bum crack.

"I'm not being controlled at the moment," he says dangerously. "Besides which, you're not Mistress Theda. Orgasm control, bi-sexuality, role-playing, financial domination: she offers it all. That's why I'm out on the step in my skimpies. Mistress Theda called by earlier in a Bedford with two big blokes and confiscated my furniture and personal effects... including my sole remaining credit card: the one I was walking around with jammed in my pants in the hope She might not find it.

"Then again," he adds, brightening, "I got such a thrill when the blokes whipped my pants off and She snatched it out that I almost spurted.

"But I couldn't," he murmurs, "because I'm not allowed to spunk without Her written permission."

Foster tells me his Mistress keeps a letter authorising ejaculation in her wallsafe – "under a big pile of other blokes' bank-books". In the event that he wishes to junk, he's required to beg her for the note and present it to the Professor in charge of the department where he works.

"After nearly seven months of ball torture I was literally sobbing for release," he recalls. "My testes were like giant beets: I knew I had to splash off soon or die. So finally I pleaded for the document.

"But all it got me was a written warning. On the plus side, everyone in the department now knows about my kink, so the humiliation factor is incredibly arousing. Mistress Theda planned it to work like that. When she's controlling me I feel released from all responsibility. My only terror is that after tonight I won't have the money to pay her for more sessions."

I don't understand. Why would he want to lead a private life of humiliating sexual subservience?

"Because my work is so fucking stressful!" he almost screams, grabbing my lapels. "The responsibilities involved in my job are horrific!"

But surely, I respond politely, how much stress can possibly be involved? He's only a laboratory technician.

"'Only?'" he shrieks. "Supposing I mistakenly pour the wrong chemical into a jar containing something highly volatile? Eh? What then? One word: Ka-boom! Euston can bend over and kiss its ring goodbye.

"Just one for-instance, "he snarls: "There's this compound one of the scientists I

work with invented that if even one molecule makes contact with the floor, it'll start an unstoppable chain reaction. The atoms of everything all start to join up and fuse to the atoms of everything else, sticking everything together like shit - starting with the floor, then our feet, knees, legs, bodies and heads... then the room, the building, then Central London. Within 10 minutes the oceans will be just millions of square miles of fused-together turd; in 15, all five continents will be wall-to-wall cack!"

I ask what this horror substance is called.

"He told me they were still thrashing out a commercial name for it that won't put the drug companies off, but that they'll probably go with 'Shitstik'."

"And you believed him?"

"He had some of it in a vial in his lab-coat!" Foster squeals. "He gave it me and told me to take it to the other end of the building and back then pop it in the fridge next to him."

Doesn't he think perhaps his bosses might be pulling his leg just a bit.

"Hardly! These are scientists!" he rasps. "They deal in hard facts, not fancy speculations and stupid magazine theories... I never been so scared. I kept screaming at people to get out of the way – that I was coming through with a vial of Shitstik – but they just laughed and tried to knock it out of my hands."

Clearly, I decide, the man's a gullible fool.

Sighing, he says the interview is over. He's got 22 minutes to get to Mistress Theda's. If I wish, I may accompany him and "witness her awesome power over men."

Mistress Theda's seat is a Georgian mansion house on Warwick Avenue. The door is opened by a bow-tied brute who ushers us inside and upstairs, to await the mighty Domina in a magnificent chamber hung with tapestries.

"I found her number on a card in a phonebox," whispers Foster, his tear-filled eyes on the clock. "I just can't get used to the fact that now She's bled me dry, after tonight She'll have no more to do with me."

He breaks off. A tall young woman with dark hair and great tits, resplendent in a bodystocking and thigh-boots, stands before us, hands on hips, a whip trailing from one fist. Foster drops to his knees, his eyes glassing over, and begins to crawl about the Axminster.

"Money!" barks Mistress Theda, extending a gloved palm and bringing down the whip. "What have you brought me, you tiny-cocked worm?"

"The last of my savings!" Foster gibbers. He rummages in his pants and proffers the money. She snatches it, toes him over on his side… and turns her dark eyes towards me.

She wants to know from Foster if I'm his "replacement".

"Theda is an anagram of 'death'," she informs me coldly. "Just think about that the next time you're tugging your pathetic pansy pee-stick."

I try to tell her I'm The Man From Mayfair, but Mistress Theda says three-quarters of "the losers" who book sessions with her then get scared try to wriggle out of it with "that one", and bats me round the head with a large leather paddle.

Strangely, I find myself becoming quite turned on.

The soles of her boots are on my fingers. I feel helpless. One of the boots is removed from my hand and placed on the side of my head, gently flattening it against the carpet. I start to get a stiffy – the kind that make you moan inane obscenities.

Everything sounds muffled through Theda's boot, but I hear her spanking Foster, one way or another. I vaguely recall his telling me that he has been "extensively trained for oral and anal". The only special skills I've learned so far are typing and balloon-folding. Suddenly it dawns on me that I might be in very deep Shitstik.

Voice hoarse from shouting, Theda commands Foster to pull £3,000 out of his arse. I hear him sobbing as he tries.

Finally she releases my head. I sway to my feet, hoping she won't notice my terrific stiffy.

Unfortunately, she does. She asks me if I'm up for penetrative sex, and, relieved and enthralled, I struggle from my trousers. It is only as I shed my socks that I notice her signal Foster, who, I now see, has his grubbies off already and is eyeing my arsehole.

"I don't want to do this," he explains, grabbing me around the waist from behind. "She's making me."

It's at this point that I fall back on the News of the World standard: replacing my 'pathetic worm' inside my pants, I make my excuses and leave, just in time to see Foster licking the soles of Theda's boots clean. Submission. Not for the feint-hearted. Or anyone with a mouth ulcer.

Sometimes life can seem like an endless tunnel, draped in shadows and filled with paranoia, loneliness and fear. But shrug off those blues, there's a light at the end of that tunnel... it's JAMES SAINT thundering towards you on the technology train!

21st Century Toys

Like a circle within a spiral, like a wheel within a wheel... yes, welcome back to the windmills of my mind. And where have they been turning this month? Why, to the future. And what a future we have in store for you, a future full of convergent technology, of domestic robots and the right to start at least two sentences with the word 'And' and use the word 'future' far too many times in the same paragraph. Happy times indeed!

Of course, that's assuming you choose the correct future. For, as we now know, time is like an enormous pair of trousers, with a right leg, a left leg and gaping flies. Opt for the wrong leg and you will be damned to an existence parallel but oddly different to that which you should have led. Fall through the flies and you be denied any kind of future at all! Be warned!

But the Trousers of Time is just my theory, and is unlikely to be adopted any time soon. In the meantime, then, why not gaze in wonder upon the gadgetry that either future guarantees? Walk this way...

"What's all this, Blinky?" I hear you cry. "The Apple iPod isn't new!" Well you're right and you're wrong. The iPod has indeed been kicking around for some time now, but this, this my friends, is the all-new iPod... cower at its feet! Slimmer and sexier than its predecessors, the new iPod features inviting touch-sensitive buttons with red backlights, comes in both 15 and 30Gb model (15 holding around 3,700 tunes), is capable of handling MP3, AAC, MP3 Variable Bit Rate, WAV, AIFF and Audible files, works with both Macs and PCs, uses USB to transfer files and boasts a splendid eight hours of play time.
In addition to all this digital music trickery, comes a few nice extras, including an alarm clock, a couple of games and it even has a remote control.
Anything missing? No, I didn't think so.
So, is this the best solid state audio player on the market at the moment? In a word: yes. And I am happy to stake my worthless reputation on that.

Hell's teeth, what's that? When Bang & Olufsen get together, not only is it 'moidar' for all other manufacturers, it's also time for the rich kids to reach for their wallets. Why rich kids? Well just check out the price tag, ass monkey! But then, £10,000 is actually a reasonable price – no, really. Firstly, it looks like a prototype Dalek – which is always going to be cool – and secondly, they sound absolutely fantastic.

Utilising some frighteningly technical thinking (which, you'll be relieved to hear, we're not going to go into here. Although I could if I wanted to. No, honestly), the 5s can belt out their 2500-watts of sound at a remarkable 180-degrees. Meaning that the positioning of them matters considerably less than it would with standard lame fuck-around speakers.
What's more, when it comes to setting them up, it's easier than stealing baby organs from a hospital, simply dump 'em where you think you might want them, press the button on the top and, voila, a small microphone measures your room's bass properties and adjusts itself accordingly. Smart as a chimp.

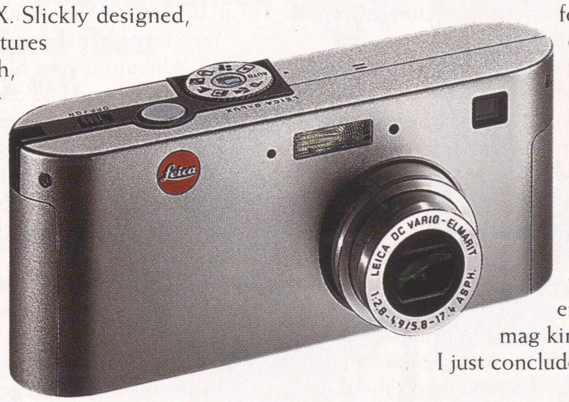
Digital cameras are everywhere these days. Every guffawing buffoon in every pub across 'that London' has one on them, just in case they need to take a hilarious picture of Nathan tupping a whore down Soho. But, chances are, few of them will have anything as frankly tasty as this. Leica are a renowned name in optics (they're the people behind the tiny spy camera that was so prolific during the Cold War), so you know what you're getting: quality in all areas. Which, unexcitingly, is exactly what we have in the shapely form of the D-LUX. Slickly designed, sturdily built, the Leica features a 3.2megapixel CCD which, whilst hardly groundbreaking, when combined with Leica's lens, the quality of the shots is superb. Supplied with a 64Mb Secure Digital memory card (it also accepts MultiMedia cards), the D-LUX boasts a 1.5" LCD monitor as well as an optical viewfinder.



On top of all this, Leica also offer to inscribe the top plate with either your name (or anyone else's for that matter) and even offer a one year guarantee that covers your own hamfisted, cack-handed ineptitude. Yep, if you fumble and drop it with the first year, Leica will sort it out for you. And, just to end things in a lads' mag kind of way, may I just conclude with: bosh!

Smart phones, schmart phones! That's what my cynical colleague said when he saw the latest glistening gem from Sagem. Then he waved his hands in the air and complained about naked lady MMS traffic ruining society. But he's wrong. Smart phones rock and there are few things in life more pleasurable than a phone with a naked lady on it. I'm sorry, but it's true.

Anyway, Sagem really broke the market last year with the release of the myX-5, their first colour display phone. That, however, is mere piffle when compared to this. With a screen size to rival Nokia's flapship models, the Sagem weighs in at a fraction of the weight of the shoe-sized Nokia 7650. What's more, the screen resolution and colours are stunningly good. But, how does it compare against the big hitters? Favourably, as it transpires. Firstly, the quality of the inbuilt digital camera is superb, on a par with the best of the Nokias. Then, once you've got you're piccie all sorted, you can use the editing facility to add effects, before sending your masterpiece via MMS to one of your mates (presuming you have mates with phones which can receive MMS messages rather than have to log on to service provider's website).

The screen – and I don't want to keep harking back to this, but – is superb, with 12 lines and 65,000 colours, something which makes the gentle art of digital phone photography far more pleasurable than squinting at a tiny display with a badly pixellated image of your Johnson on it.

Menu navigation is intuitive, Hi-Fi ring tones are good fun until you realise that the radio isn't playing the same song over and over again and it's your suicidal mate ringing in a desperate last bid to be talked down (I'll not be making that mistake again!).

Add to all that downloadable games, the usual array of schedules and timer functions, interchangeable covers and animated screensavers and the Sagem myX-6 is one hell of a phone. Nokia and Sony Ericsson should take note.

SEGWAY ▶

£4,500

www.planetsegway.co.uk

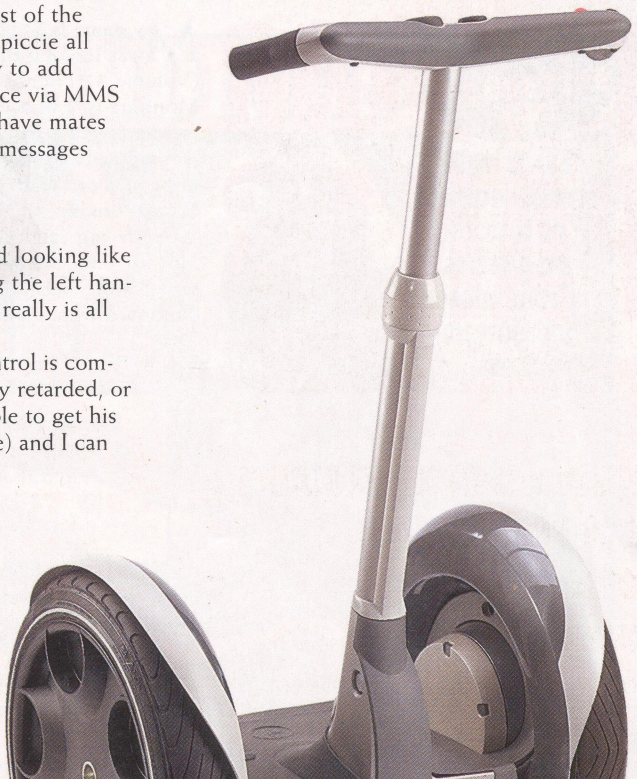
The first question that probably crossed your mind when you saw this is: "What the hell is it?" It's a good question. But let me start by saying this is something you're really going to want. The full title is Segway Human Transporter i167 – which should give you more of a clue as to what we're looking at.

Launched in the US last year – and previously hyped as 'Ginger' the greatest revolution in transport since the leg – the Segway is nothing short of ingenious. Powered by a rechargeable battery, the Segway uses a unique gyroscopic system of control. Basically, stepping upon the platform you have to find your centre of balance. Got it? Good. That's it. To move forward, you lean slightly forward, to move backwards, you lean slightly backwards. Some clever technology ensures the Segway always remains upright, so there's no chance of falling flat on your face and looking like a right arse. Turning involves twisting the left handle either in or out and... well, that's really is all there is to it.

Within a few minutes of riding it, control is completely intuitive (unless you're partially retarded, or an ungainly fool who will never be able to get his centre of gravity to settle in one place) and I can personally guarantee that you'll never want to use that hackneyed old 'walking' malarkey again.

On a full charge, the Segway can run for two hours at speeds between eight and 12mph, although this will be lessened if you spend time doing 'tricks' on it – which I heartily recommend.

Interestingly, the US inventor of the Segway, Dean Kamen, has also invented an electric wheelchair that can climb up and down stairs. Not quite as cool looking when you're shooting through London, but very clever nonetheless.



"'I slid between her legs and nuzzled her pussy as she held me by the hair. I darted my tongue between her lips and tongued her warm hole and she came all over my mouth,'" I recited, sheepishly. Sally told me to continue when I stopped, so I did. "'She grabbed my hard cock and pulled at it as I lapped up her…'"

"Keep reading," Sally insisted, but I couldn't, so she grabbed the page from me and read the highlighted sections herself. "'Then I stuck my cock in her mouth and she wanked me into her face until I gave her a lovely hot drink.'"

"Sally, what's the point of this?" I asked, wondering if she was just trying to humiliate me, but she continued to read. I was sat in a chair while Sally was perched on the desk just in front of me.

Her legs twisted and tangled as she read and after a couple of paragraphs I picked up on the suddenly obvious sexual tension between us.

Sally wasn't bollocking me, she was coming on to me.

"She pulled my cock to her chest and wrapped her warm tits around it"

"'I slid my dick between her tits and fucked them before pumping my mess all over her face,'" she read, looking me straight in the eye. "Do it. Get your cock out and fuck my tits. Do it now," she ordered me.

My cock was as stiff as a plank and it showed through my trousers. Sally's eyes dropped to my enormous bulge as I fumbled with my zip then pulled out my meat.

"You really are a dirty bastard," she gasped in mock shock, as she watched me wank off just inches from her face. "I suppose you want to do it, don't you? You want to fuck my tits for real?"

"Yes," I told her and angled my cock up towards her. "Unbutton your blouse and lean into me."

She did as I said and dropped between my knees. She had firm round breasts for such a slim woman, and her nipples were erect and excited. She pulled my cock to her chest and wrapped her warm tits around it, then rocked it backwards and forwards. My purple helmet protruded from her cleavage and I told her to lick the end.

Sally poked out her tongue and flicked it over my seeping eye as she stroked me off between her breasts.

As she did this I read her extracts of my letter and she moaned with hunger.

"I want to fuck you," I told her, but Sally told me I'd get nothing at all if I carried on that way.

She slipped her fingers in-between my legs and scratched at my balls and suddenly my root tightened up. "I'm going to come," I warned her, and she dropped her open mouth down onto my pole and started sucking on my swollen head hard.

"Oh fuck, yeah," I moaned, then exploded into her mouth, emptying a tidal wave of come all over the back of her throat as she massaged my swollen balls. She downed the lot and let out an enormous sigh of satisfaction as she sucked my dick until it had shrunk back to normal. When she was done, she zipped me back up and told me to get back to work. I passed her in the corridor a couple of times that day and each time I did she didn't even afford me a sideways glance. The next morning, however, I came to work and found my calendar ringed with the days my boss was out of the office. There was also a note on my keyboard. It said simply, "send me a story on these days. Sally."

TALKING PANTS

My name is Stuart and I read your magazine. I was looking through one of the older issues (Volume 37 Number 5) and I noticed how sexy Monique is. I was wondering if it would be possible for me to get a pair of her pants because I like to collect women's pants. I hope to hear from you soon and hope you can make me a very happy man.

ROMP IN THE RUINS

My husband, Martin, and I have always been pretty adventurous when it comes to sex, and have experimented with most things over the four years we have been together. Martin loves me to wear sexy lingerie and lots of make-up when we fuck, as he likes the slutty look and I certainly don't mind as he buys me new clothes for our games nearly every week.

I am nearly six feet tall with a 37-24-36 figure and long jet black hair so when I pull on a basque and stockings or one of my rubber numbers, I know I'm going to turn a few heads.

Anyway, the reason I'm writing is to tell you about our latest sex game. We have recently been getting into shagging outdoors, in the back of the car, in fields and local parks. The thrill of maybe being discovered just adds to the excitement, and when Martin hoists up my skirt, spreads my thighs and stuffs his lovely fat prick up my cunt I can climax in seconds. It was last month, though, after wandering across a field outside town we came across a derelict house. By the look of it, it had been empty for years, with smashed windows and the front door hanging off its hinges.

"His fingers worked their way into my twat"

"Let's fuck in here" Martin said, pulling me towards the rubble-strewn doorway. I was a bit nervous at first as I had no idea what lurked in the bowels of this ruin, but somehow the dirtiness and destruction all around seemed to get my juices flowing. I was wearing a

For this month's tenuous linking of celebrity skin shots, we bring you a trio of sexy songbirds, all of them with very fine pairs of lungs as you can see, er, hear. They sing, they dance, they take their clothes off, which makes them top of the pops in our exclusive chart!

CELEBRITY SIZZLERS

MARIAH CAREY

Mariah Carey rhymes with dairy, and you have to agree that she's got a lovely pair of udders!

The popular songstress has sold more than 150 million records in her time, and for while there she was just about the hottest property on the middle-of-the-road music scene. But then came her divorce from powerful Sony Music executive Tommy Mottola and the cancellation of one of the richest record contracts in history at Virgin Records.

Mariah's misery continued with a much-publicised emotional breakdown and the box office failure of her movie, *Glitter*. Luckily she seems to have come through that now, with a new movie and album in the offing. We're also pleased to notice that the Mariah of today seems to be wearing less and singing more salacious material. Give the public what they want, girl, and they'll come back for more!

"The Mariah of today seems to be wearing less and singing more salacious material"

MADONNA

When it comes to tits-out action, the Material Girl has no equals. Mucky Madge started flashing her flesh way back in the early days of her career. She found herself in the Big Apple, barely earning a living by working a minimum wage job at a Dunkin Donuts counter at Times Square. But things improved when she got her own donuts out in the low-budget NY-shot flick, A Certain Sacrifice.

In 1983, Madonna's debut album was released and spawned the hit single "Holiday". The rest is history. She quickly became the most famous female singer in the world, causing controversy with such scandalous projects as the documentary *Truth of Dare*, a behind-the-scenes account of her

Blonde Ambition Tour, and her role as a kinky call girl in the much-maligned *Body Of Evidence*.

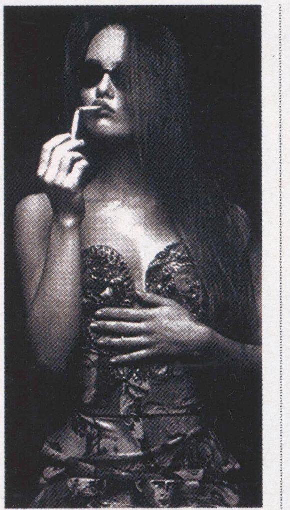
Whatever you think of Madge, you've got to give her credit for staying the course. From mesh-wearing, fish-net stocking, nothing-like-a-virgin, to pointy-cone bra, tuxedo-wearing diva, to sex-crazed woman, and finally to Zen and yoga-practicing mother, she has literally done it all.

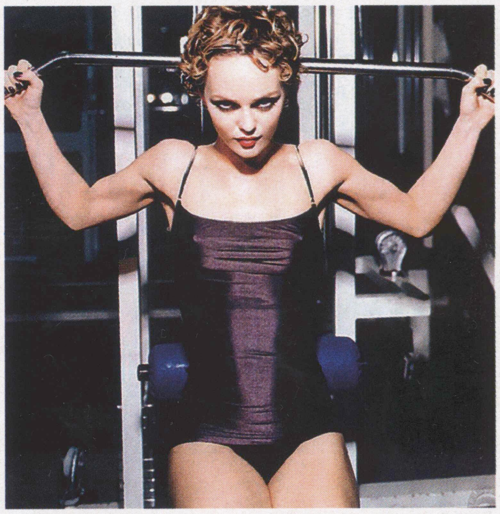
She's even been a Bond girl. And while the critics rightly slammed her bored performance in hubby Guy Ritchie's interminable *Swept Away*, chances are she will very soon bounce back.

The only problem is that Madge has shown us just about everything she has got. Her coffee-table *Sex* book and raunchy pop promos have destroyed all the mystery, and there's really nothing else to see… unless she swallows a camera!

"Madge has shown us just about everything she has got"

VANESSA PARADIS





They may not be that adept at fighting wars, but at least those crafty Frenchies are particularly good at breeding naughty young nymphettes, which seems a fair common market trade to us.

A classic example of the species can be found in the pouting Vanessa Paradis, one of the tastiest bits of Eurototty ever to grace the pop charts. Vanessa started out as a singer at the age of 14 and barely waited until the age of consent before whipping her tits out onscreen in the arthouse hit, *Noce Blanche*. She got a French Oscar for her trouble, but we know what we'd like to give her – and it wouldn't go on her mantlepiece.

The nude scenes were all in the name of art, *naturellement* – and they certainly didn't do her career any harm. Chanel were so impressed that they made her their Coco girl, swinging on a perch in a giant gilded birdcage wearing fishnet tights, leotard, Chanel cosmetics and Coco scent. It worked for us, even though we couldn't afford the perfume.

Apart from her famous single *Joe le Taxi*, Vanessa has had a number of hit albums, *M & J*, and the self-titled *Vanessa Paradis* – which was produced by her then-boyfriend Lenny Kravitz in 1992.

Since 1995, she's been the significant other of actor Johnny Depp.

Fortunately, married life hasn't stopped her from taking her togs off in public. She is still frequently photographed beach-basking *au-naturel* by the French paparazzi, and hasn't knocked the movie nudity on the head either, as witness her gonad-grabbing display in the recent French movie, *Elise*.

"In spite of my shyness I find nude scenes beautiful," she told an American film magazine. "Sex is an important motor in a screenplay, just as in life, and I don't see why I should want to avoid that."

French birds, don't you just love 'em?

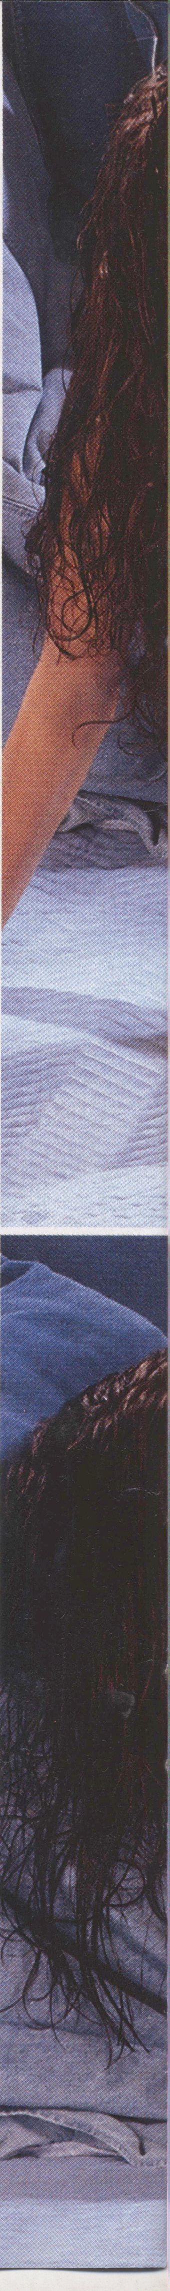
In the grand scheme of things, Avery's outfit provides little, if any, protection against the elements. Small wonder that the feisty brunette isn't actually from sunny old Britain. Nope, she's a student at one of our finer universities. And she's come a long way from her native California. So why the move? "Oh God, so many reasons, but I wanted to study here, and I think British men are much cuter than Americans." Really? Better lovers, too. "Present company excluded." Oooh. Hark at her!



Masters, slaves, punishment and pulling carts around while pretending to be a horse. It's all in a day's work for sexual submissive miss x...

Confessions Of A Society sub

Our Master looked on us as pieces of living art, and as such we were expected to perform for His pleasure. Being voyeuristic, His whole house was wired for sound and there were cameras in every room.

i abandoned myself to lustful pleasures, the only fly in the ointment being ulla, the tall blonde slave-girl, who was neither beautiful nor submissive. she dominated the others, and they deferred to her as though she were a Mistress, not a sub. On my first full day there she forced me to eat her out in Master's large sunken bath in a most demeaning way.

ulla was a fully-trained pony-girl, and Master used her for pulling a light chariot called a sulky. It explained her large size, since she needed to be strong and fit to be able to pull the sulky for any length of time.

Under orders from Master, tia, a pretty auburn-haired slave and i prepared ulla for a demonstration that Master was giving for a number of His like-minded friends. ulla stood motionless, her blonde hair was pulled high on her head and tied into a ponytail, the ends of which were tinted scarlet – as was her minge. Combing it out, i mused that this must be the reason for her snatch not being shaven like the rest of Master's slaves. ulla was indeed different: Master had chosen her as his personal pony-girl; as such she had a unique place in His household.

i could sense her arousal as tia and i finished preparing her. we knelt on either side of her holding her boots open ready for her to step into. They were red with very high black platform soles and high heels which nonetheless bore an odd similitude to hooves.

"i felt a cock being pushed into my pussy"

tia and i zipped the legs of the boots up carefully. On reaching the tops of ulla's legs, we could hardly fail to notice that her arousal had made her very wet indeed; little trickles of pussy essence were rolling down her thighs into the top of her boots. tia began to nose between ulla's legs, and i moved behind her, gently licking and rimming ulla's anus, our tongues meeting now and then as we stimulated her. ulla commanded us to stop, remarking in her heavy Scandinavian accent that Master would "take care" of her later.

From hooks on the wall in the tack room we took down her body harness, admiring and stroking the soft leather of the garment. When we fastened it around her upper body and buckled the straps around her arms, it pulled her shoulders back, thrusting her breasts into prominence and leaving them fully exposed in the same manner as her buttocks and pussy.

At this point, Master entered, closing the door behind him, his expression betraying satisfaction with our efforts and ulla's appearance. He walked around her, inspecting, and tightening one or two of the straps. Then, producing a large butt-plug with a long blonde pony-tail depending from it, he ordered ulla to bend forward. Lubricating it from a bottle which tia offered Him, He pushed it into ulla's pale pink anus without ceremony, hesitation, or mercy. Moaning loudly, ulla wriggled her arse in protest. "Settle down," He commanded, giving her a sharp slap across one buttock-cheek.

Master clamped a broad studded collar around her neck, which raised her head and held it high.

Master connected the reins to her harness, and with a sharp jolt, started her towards the door. "Follow me," he commanded tia and i.

As tia and i entered the barn, hands grabbed us and leashes were snapped onto our collars. In the centre of the barn stood the sulky – painted red to match ulla's harness.

Guiding ulla to some straw bales, Master pushed her over them; and, undoing his flies, produced his large erect cock. Pushing ulla's tail aside, He rode her doggie, long and hard – His cock slamming into her as if He were a stallion mating a mare.

Sated, He stood up, and, jerking ulla back onto her feet, led her to the sulky. Pushing her backwards, he manoeuvred her between the two handles of the sulky, lifting them, and attaching them to her harness. Taking up a long, vicious looking whip, He seated himself in the chariot, and tested the reins.

As tia and i watched, Master pulled up beside us, suggesting to His audience that we be tossed across the straw bales and used. "You will all get a turn with the pony-girl," he told Them, "don't worry. Meantime these two fillies should provide an entertaining side-show."

Blushing with embarrassment i was led with tia to the straw bales, where we were positioned together across the bales, facing in opposite directions, our legs apart.

Without warning i felt a cock being pushed into my pussy. As i opened my mouth to gasp, a large penis was pushed deep into my throat.

His hands digging into my buttocks, another Man began riding my pussy, pulling my hips towards him as he ejaculated deep inside me.

In addition to wanting to know if she'd go out with us, we were keen to learn if Viola played an instrument herself. From lawnmowers to cars to motorcycles, Honda wants only one thing from its products: to be the best available. So when it came to producing the best 600cc supersports motorcycle they introduced a new element – the natural touch. Flick Clacker climbs on...

A BEAUTY AND A BEAST

If someone told you Honda had a design team within the R&D department to ensure its products looked, felt and sounded natural, would you believe them? I didn't at first, but yes, it's true.

Honda's worker ants had a big task to accomplish in the development of the 2003 CBR600RR. They had to engineer the exhaust note to mimic a race bike in order to match the CBR's race replica styling. Bearing in mind EC noise and type approval regulations are getting stricter at every EC member meeting, this is not such an easy thing to do as you might think. And let's not forget nearly all modern four-stroke bikes, like cars, have to carry a hefty catalyser in the exhaust system – a veritable noise-deadening device if ever there was one.

But a race bike sound is what Honda wanted and that's exactly what the CBR600RR produces. The fact that the 599cc motor doesn't scream like a bad extra in a Halloween movie until 15,000rpm doesn't matter. It makes the right noise when the right revs are applied.

Now read that last paragraph again. 599cc and 15,000rpm! Yes, you read it right. Makes a 2.0 litre Vauxhall Vectra look sick doesn't it? No? Then how about the CBR's measured power output: 103bhp @ 13,300rpm, at the back wheel and enough to score 158mph when given its head. Hmm, that's a lot of poke and speed for a bike that weighs 169 kilos dry -- less than a third of a Vectra's total weight.

Honda's CBR600 has been its biggest selling middleweight since I was a nipper many, many years back. But high sales of the 2003 CBR600RR have surprised Honda. Why?

The CBR600 series has always provided a bike that accommodates fast, solo use – not forgetting it's also won too-bloody-many-to-list 600cc world SuperSport championships – and two-up, touring capability. But this year the CBR6 comes with the 'RR' (race replica) tag. And quite rightly so.

The bike is the most sports-focused 600 from Honda ever. It's sleek, angular, hard as nails bodywork matches the 2002 MotoGP winning bike (a 1000cc V-5 four-stroke with over 200bhp at the rear tyre) but most impressive is that the CBR has nigh-on perfect balance.

Think left or right and it goes left or right with barely a muscle twitch from shoulders or leg muscles. Shift butt crack from seat centre to outside edge and the bike will drop onto that side. You're now aiming for the apex of the corner and by the time you've read this sentence you're past it and on the way to the next turn. Awesome. Awesome on the track, awesome on the road, and all because the bike inspires. It will take you through your favourite corner on your favourite stretch of Tarmac faster than you thought possible.

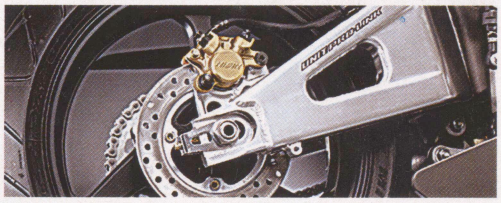
Despite the head down, bum in the air riding position, the CBR isn't uncomfortable. Some sports-tourers could be shamed by the Honda's ability to prop the pilot in comfort. Yes, the seating stance does put the rider high above the bike, but from this you get little windblast to cause wind-burn on freshly shaven chins because the fairing screen does its deflection duty very well. The upper weight also helps the bike drop into turns easily and quickly.

"Awesome on the track, awesome on the road"

As sure as eggs are laid, the CBR600RR handles. Perfectly and precisely. No wobbles, weaves, or, now I come to think about it, any ring-squinting behaviour. Again racing influence ensures this.

The rear swingarm is an object of beauty to welders and fashion victims alike. Ripped straight from MotoGP, the deep-wall sides and internal bracing is as solid as a carbon-metal matrix ingot.

Another reason for the CBR's stability and precise roadholding is the sweet action of the suspension. Japanese suspension specialists Showa have a good relationship with Honda – they supply the MotoGP bike with the most technically advanced and expensive suspender units under the guise of development, Honda pay for similar-ish, but much cheaper spec units to go on the CBR.



The front forks are chunky items and if they are to be faulted then it's because they're the old-style telescopic forks. Even stronger inverted, USD (upside down) would have heightened the race package.

Monoshock (single rear shock absorber) suspension at the rear differs from the norm in the way it isn't mounted directly to the frame. Instead it works against a series of linkages and lets nothing much in the way of bumps get through to the frame and unsettle the chassis. Both ends have adjustment for compression (aka bump) and rebound damping and spring preload. Varying weights of rider and riding style are dealt with typical Japanese efficiency.

With just the above, briefest insight into Honda's CBR600RR – although I say it myself – it's plain to see why the Big H's stonking middleweight fighter is the best supersport 600 you can buy. And at £7149 it's also cheaper than two of its three rivals. And it looks like Rossi's bike...

From the iconic XK120 through to the E-Type, Jaguar have produced some stunning sports cars, XJ-S aside. With the XKR, things just keep getting better, as DAVID LONG reports...

Cat Scratch Fever

First we had the Jaguar C-Type: it won Le Mans. Then the D-Type, same straight-six engine and an outrageous rear fin: it won Le Mans as well, three times in a row. The beautiful, iconic E-Type: it didn't win, but then it wasn't meant to. Same engine, only this time what it did was make the 60s swing so that even now, those early versions still turn heads in a way few other cars can do. And then what? The F-Type? No such luck. We got the XJ-S instead – and what was all that about?

Fat around the back, heavy, huge unsightly bumpers, any hope of real performance strangled by ridiculous American exhaust emission regulations. And a shape so cumbersome, so clunking that when a spy photographer spotted an early prototype out testing he didn't bother stealing any snaps of it because, as he said at the time, he couldn't believe Jaguar 'would ever put anything that ugly into production'.

He was wrong of course, they did. And what a mistake. For the best part of three decades the company had been responsible for some of the sleekest and most elegant sports cars in the world, and then the XJ-S came along. Even worse was that over the same period Jaguar teased us with a whole string of tasty whatmighthavebeens. Machines like the stillborn mid-engined XJ13 – the prototype V12 was written off in a high speed crash – then a fabulous Pininfarina-designed Spider, and even something they called the F-Type but which eventually somehow morphed into the Aston Martin DB7.

And then we got this one. Much nicer looking. Originally it was called the XK8 – the softer, slightly less powerful versions still are – but in time it has evolved into the XKR, and in its current supercharged 4.2 litre guise it's not at all a bad beastie.

For their part, Jaguar say it's the fastest selling sports car in their entire history, but in truth it's not really a sports car, more a grand tourer. It's too big for a sports car. Too heavy, too well-equipped, in truth too damn comfortable and cosseting to deliver that real seat-of-the-pants experience. But it's certainly quick, I'll give 'em that.

Which is to say that whilst you don't actually get an official government health warning when you buy one of them, with 400 horsepower under your right foot, it's always worth bearing a few facts in mind. In particular that immutable law of physics which states that at the limit of adhesion lateral weight transfer causes the vertical load on the already heavily loaded outer tyres to increase, and that this has the effect of increasing their slip angle until the optimum point of balance is achieved, whereupon a state of equilibrium exists at least until it is unsettled by an incautious driver input.

Or to put it another way: if you boot it badly enough on a bend, it'll probably come off and you'll end up in a field. Which wouldn't be at all good, and not just because you'd have just spent close on £60,000 on the experience, at least by the time you'd fitted a few extras like these nice big wheels and the premium nine-speaker hifi.

That said, the field thing didn't happen to us, although it might, easily, because this is a very powerful car. Top speed's electronically limited to 155mph, but even fully loaded, 400 horses means it'll hit 60mph from a standing start in just over five seconds, and with greater mid-range punch than before (a six-speed box is standard, and there's oodles of torque) it's certainly got the grunt to go with the looks.

And what sensational looks they are. Here indeed is something of which Jaguar's design department can be proud. Never mind the silly X-Type: huge, sleek, discrete but muscular, this one really has that big-cat-about-to-pounce look which made the earlier sporting Jaguars such heroes. And let's be honest, if you levered off the badges – the one on the nose actually reads 'Supercharged' – you'd be in no doubt that it's a Jaguar.

Drawbacks? Well, like I say, it's enormous but still fairly cramped inside like the old XJ-S was. And it's bloody thirsty, too, although maybe no more than anything else with these sorts of performance parameters would be if you spent too much time on the loud pedal. And of course we still haven't quite got an actual F-Type here, have we? But then, with sister company Aston Martin fast-forwarding the development of its smaller, more nimble AM V8 Vantage – and maybe keen to split the costs as well, who knows? – I wouldn't rule that out completely yet, either.

Gentlemen, that reminds me

Are those tears of laughter pouring from your eyes? After reading some of these jokes, we doubt it...

"I think you'll find him in quite a good mood."
MANAGER
Roy Nixon

A ventriloquist is touring rural Wales when he sees a small village that could have come straight out of a costume drama. On a bench outside the pub, he sees a rustic bloke with a sheep-dog sitting at his side looking out over the fields by the pub – one full of sheep and one with a horse. The ventriloquist decides to have a bit of fun, so he goes up to the man and asks him if he can have a chat with his dog.
The local tells him not to be so bleddy silly, dogs can't talk, but the ventriloquist throws his voice so it looks as though the dog says: "We can when we want to, you know."
The local is stunned as the ventriloquist goes on to ask the dog how it's doing and the dog tells answers about how life is good, what with an owner who feeds him and takes him for long walks.
After a bit of this, the ventriloquist, asks the man if he owns the horse in the field.
"As a matter of fact, yes," he replies. The ventriloquist then makes small talk with the horse about how well it's looked after by the man.
Finally, the ventriloquist looks over at the field of sheep. "They your sheep?"
"Yes they are," the local replies.
"Mind if I have a chat with them?"
"Can if you want," he says. "But them sheep are bleddy liars."

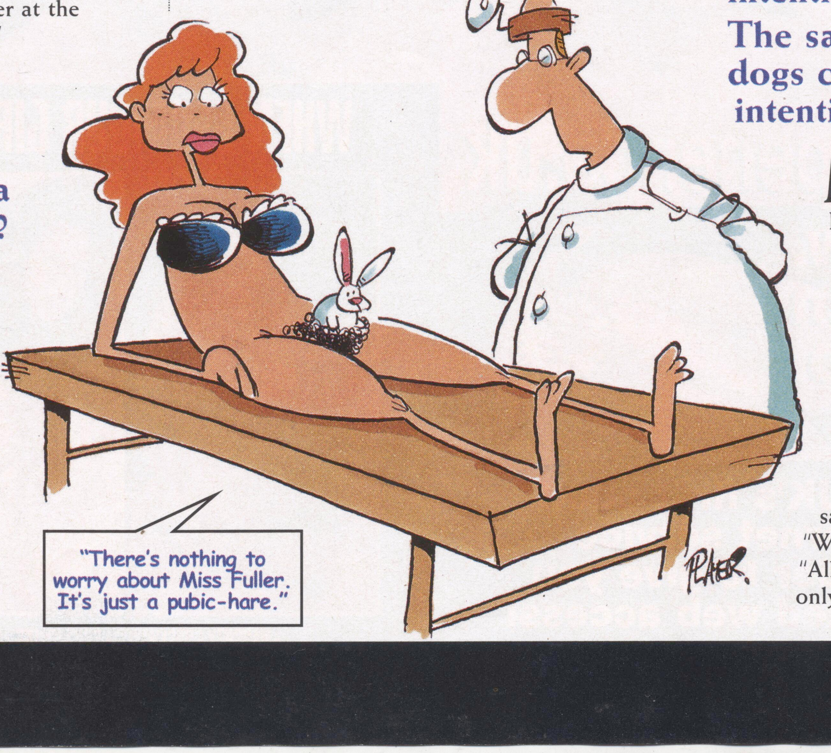
How can you tell if a robot's promiscuous?

It goes around blowing fuses.

A man tells a woman in the office that her hair smells nice. She goes straight to the personnel office and says she wants to claim sexual harassment.
The personnel manager is puzzled. "What's wrong with him saying your hair smells nice?"
"He's a midget," says the woman.

Mrs Jones really can't be bothered with going to the golf club dinner, so when her husband reminds her one day that it starts in two hours, she tries to fob him off by saying she's too tired to get made up and changed. He's having none of it, though, and marches her off upstairs to get ready. She whinges and moans, but he's determined. So determined that he sits down to watch her and make sure that she gets a move on.
Item by item he watches her get undressed in silence, until she takes off her bra when he sucks air through his teeth and says, "I must be giving you too much money if you can afford a Wonderbra."
"A Wonderbra?" she sniffs. "With the pittance you give me. What makes you think it's a Wonderbra?"
"Well," he says. "After you'd taken it off, I couldn't help but wonder where your breasts had gone."

Two old boys are in the pension queue at the post office. One of them notices a poster advertising a new set of commemorative stamps. He looks at the pictures for a while and says to his mate: "It wouldn't surprise me if one day, Tony Blair gets the Queen's head on stamps replaced with his."
"It'll never happen," says his mate.
"What, you think politicians have got too much respect for the monarchy?"
"No. I just don't think the post office would go for it."
"Oh, you think they've got too much respect for the monarchy?"
"No, I think they'd realise it was a bad move. If they put politicians' heads on stamps everyone would spit on the wrong side."



"There's nothing to worry about Miss Fuller. It's just a pubic-hare."

HOTEL RULES

It's political party conference time again, and the sea-side hotel is packed to the rafters with oily guests. One particularly oleaginous man is at the reception desk asking if he's had any messages. When told there are none, he turns away, and in so doing elbows the elderly woman with blue-rinsed hair behind him in the breast.
"Ma'am," he smarms. "If your heart is as soft as your breast, I know you will forgive me."
She fixes him with an icy stare and answers: "If your penis is as hard as your elbow, I'm in room 267."

What possesses men to chase women they have no intention of marrying?

The same impulse that makes dogs chase cars they have no intention of driving.

Mrs Smythe is being chauffeured to Waitrose by her daughter Daphne. Mrs Smythe has to have the Jaguar parked near to the entrance because she doesn't see why she should be expected to walk, but today the car park is teeming.
Daphne drives round and round about six times before resorting to expletives. "Bugger and bloody hell," she said.
"It is tiresome," said Mrs Smythe. "Parking spaces and men are all the same."
"What do you mean, mummy?"
"All the good ones are taken, and the only ones left are disabled."

Seeing the car reviews in Mayfair reminded me of how much I enjoy fucking and sucking from the comfort of my passenger seat...

ADORE ANJALI

TOO RUDE!
TOO RUDE!
TOO RUDE!

This month, I'm gonna tell you what I love to do in the great outdoors. I have to admit that it's quite a kink of mine to be on the font seat of a car, legs wrapped around a guy's back, panties around one ankle, while being fucked hard. The sheer thrill of the possibility of being caught, as well as the obvious flashbacks to my younger days, makes the whole scene very appealing to me.

As a sex-crazy young Indian student, the car was the main sexual arena during those times. My little bottom has graced quite a number of boy racer passenger seats – I seemed to be quite a popular co-driver as it happens!

I remember one distinctive experience when I met a young guy at college. He was a few years older than me and had quite a reputation with the ladies. He was a cute Punjabi guy and obviously from a quite well-to-do family.

His claim to fame was that he was supposedly hung like a donkey and had a funky convertible BMW. As an inquisitive 19-year-old, my friends' idle chatter got me very interested indeed.

So there I was in my new tight leather trousers, all hot and bothered and in the mood to pull. I started by hitting the dance floor and making it obvious from the looks that I was flashing this guy that I was interested. It didn't take too long before he was behind me and pushing a rather promising bulge into my leather clad bum cheeks. He was quite a cheeky guy and immediately told me that my "fat ass" was turning him on. The cheeky sod! I was in two minds whether to slap his face or drop my thong. What was a girl to do?

He apologised and said that I'd got him a little carried away. Anyway, a few drinks later and he was offering me a lift home. I remember, looking back now it seems very funny, but on that night I was the envy of my friends. And as we left I could imagine the comments from the other girls in the club once we'd gone. I'm sure that they were calling me a little tart but hell – all of them would have swapped places with me that night.

We quickly found a suitably quiet location and there we were snogging merrily away with the hood of the cabriolet down on that balmy July night.

My big-dicked Punjabi friend was busying himself with my tight leather jeans and I was doing my own bit of trouser exploration myself.

Yes, he did have a big one. More thick than massive, but in those days it seemed like a whopper.

I made a real play of taking it into my tiny fingers and pulling the foreskin gently backwards and forewords while telling him what a massive cock he had. He seemed to love that and relaxed back in his leather seat very proudly indeed.

"What about a blowjob, then?" he romantically asked. Again, I came across all shy and innocent. "What, you want me to put that in my mouth?" and all that bull. To be frank, my mouth was literally watering at the prospect. So without much more in the way of fake resistance, I was soon leaning across and tasting my first meaty Punjabi offering.

Pretty soon he was shoving as much of his thick cock into my little mouth as he could, and without warning, I felt his cock twitch as he shot his load deep into my throat.

I swallowed as hard as I could in a vain attempt to take it all, but when I eventually looked up at him, my chin was covered in his salty cream.

Believe it or not, I went back home that night and had to finger myself off to sleep in my little white panties. What a waste!

I did get his fat dick inside me eventually and I have to admit he turned out to be quite a good fuck.

Yes, over the years I've had some wonderful sexy experiences in cars and vans. Some of my best studs have been your classic white van man. That said, I believe it's a common female fantasy to be fucked senseless by an experienced businessman in a luxurious Roller. As I'm a little wife-swinger, I've had the pleasure of both.

Back in the present day, I still love to indulge in some in-car entertainment. Whether it's with my hubby or one of my swing studs, I always enjoy it.

I always seem to come even heavier and I'm partial of giving in-car blowjobs on my monthly, enforced weeks off, much to the delight of my hubby and our friends!

If only bath-times were this much fun. We'd be jumping into the tub at least… oh, once every three weeks. According to Jenna, though, fun in the bathroom is where it's at. "You've got water, oils, soft towels, and people naturally get naked in the bathroom – what better place is there to have sex?" she told us. Promptly agreeing we then accidentally dropped her soap. We can be so clumsy at times…

I'd never been that much into getting head until I started seeing Gavin, because he can't get enough of licking my pussy.

When a bloke's not into it, it doesn't do much for the girl – I actually remember thinking "Don't bother!" the first time Gavin started kissing his way down, because none of my other boyfriends had been that good at it. I'm glad I didn't say it out loud, though – he spread my pussy lips wide open, then slid his fingers up me, hooking them as he rubbed them against my inner walls. I got this tingly tight feeling almost immediately, because they were catching my G-spot. It felt a bit strange at first, but when he stopped I begged him to carry on.

That's when he brought his mouth down, too, kissing my clit then flicking his tongue against it as it swelled up. I was already squirming back on the bed, and when he started sucking on my clit, rasping his tongue against it, I was bucking myself against his face until he had to stop to calm me down.

He switched over, rubbing his fingers over my clit – he could have brought me off just like that. But then he sucked my labia into his mouth, while burying his tongue down to the hilt in my hole. I was squealing with pleasure, my knuckles turning white as I clung to the headboard of his bed. As I started coming, he grabbed me around the arse, pulling my pussy hard onto his face. His nose was rubbing up against my clit as he carried on sucking me, slurping down my fuck-juices as my inner spasms pumped them out. His chin and halfway up his face was glistening wet when he looked up at me, and when he moved up to kiss me, he stuck his head in between my tits, smearing them with moisture, and gave my nipples a good sucking, which sent little aftershocks through my clit.

"He can't get enough of licking my pussy"

Gavin loves giving head – I reckon he'd do it for me whatever. But coming in his mouth makes me even more willing to return the favour and suck his cock until it's spunking down my throat. A little give and take can do wonders...

It may sound strange, but I think I like being licked out a bit too much! To explain, my man Josh loves sixty-nining but he's always moaning that I get so carried away when he's licking me that I can't concentrate on what I should be doing to his cock!

I suppose he has a point, even if it is his fault for being so good at oral! It started when I was sucking him off, with my head resting on his stomach. He was fingering my snatch gently, which just spurred me on to suck him harder, and he'd raise his juice-soaked fingers up to his mouth so he could taste me off them. That got him wanting more, and he got me to swivel around so I was straddling his face as I sucked him.

"He started fucking me with his tongue"

All was fine for a couple of minutes, until he started fucking me with his tongue. Even a snog from him can get me halfway to orgasm, so when he started pumping it in and out, and rocking his hips so his cock was fucking my mouth to the same rhythm, it just sent me into a frenzy. I arched myself up and back, grinding myself against his lips, one hand reaching down to play with my clit. I was trying to keep him on the boil by wanking his cock with my free hand, but as I got closer and closer to orgasm, I couldn't keep up. Finally, he took over, wanking his cock, his fist clenched tight around it, while he licked and sucked me to a screaming come.

I sank down so I was lying along his body, my face right up by his cock as he carried on wanking himself. I moved his hand so he was playing it against my cheek, then let him finish himself off, taking half his load all over my face, then opening my mouth to swallow down the rest.

Josh says that when he wanks he often pictures how I looked – first sprawled over his body, my moist, orgasm-swollen snatch in his face. Then I shifted

round to look at him, blobs of sticky jizz all over my face, licking my lips as his mess dripped down onto my mouth.

We still try sixty-nines now and again, usually with me sucking Josh right to the brink before he starts tonguing me. We haven't quite managed to come together yet, but at least the pair of us get off, which is what really counts!

My fiancé, Ross, and I love sexual experimentation and recently we answered an ad in a contact mag from a like-minded couple, Adam and Sophie. That led to the four of us renting a holiday cottage out in the sticks for an 'anything goes' break.

The boys were desperate to see me and Sophie together, and as she was pretty new to this I took the lead. She was a tiny little woman – her tits were so small they almost disappeared when she lay down, but she had the most incredible, suckable nipples. Her pussy was cute and neat, her dark pubes trimmed into a perfect triangle on her mound. I tongued along the edges, and then down the "landing strip" on either side of her pubes.

"I lapped along her slit, relishing the taste of her"

When I parted her labia I found her nicely juiced up. I lapped along her slit, relishing the taste of her as it spread out over my tongue, which I then plunged deep inside her hole, forcing out more juices which I swallowed, mumbling my lips teasingly against her clit. Ross was already wanking, and Adam followed suit – I was gazing openly at his cock as it hardened and thickened in his hand, feeling my own pussy run with juices as I imagined it inside me. Even when I had my face buried in Sophie's luscious little snatch, I could hear the slap of skin on skin, and felt a throbbing tingle pulsing out from my crotch.

"My twat suddenly felt so hot and wet"

Suddenly I felt warm breath on my moist folds – Adam was going down from behind me. He planted a couple of playful kisses on my bum-cheeks, then a shiver went through me as he started to lick me out. Ross was still wanking, his cock about a foot above Sophie's face, his balls swinging with every stroke. She put her hand up to cup them, and although he was stiff as a post, they managed to ease his cock in her mouth.

I watched them for a couple of seconds, while fingering her clit – it was so horny seeing Sophie's pouty lips closing around my other half's helmet, and the look on his face as she started sucking on it. Then, all of a sudden, I felt Adam start to do things with his tongue and lips I'd never felt before. I shut my eyes and carried on sucking, even harder, on Sophie's twat – trying to give her what she was used to.

I wanted Adam to fuck me, but he wanted me to make Sophie come first. But still I didn't rush it, so he slid his stiff prick inside me, stirring it around but not thrusting, so I could still focus on her twat. It took me a while to get her to orgasm, because she wanted to string out the build-up for as long as she could. I don't know how she lasted out as long as she did – she was a whimpering mess by the time she started to clench around my tongue, her skin hot and moist and her entire crotch sticky with her bubbling juices.

The second she finished, I laid my head on one of her splayed thighs, and slipped two fingers up her as Adam started pounding into me.

She moaned, but grabbed my hand, fucking herself with it until her twat was clenching once again. This was the final turn-on that tipped me over the brink – my twat suddenly felt so hot and wet, and it clamped like a vice around Adam's prick. I asked him would he come inside me, but before that, I felt the wet splash of Ross's come all over the small of my back and my arse cheeks. Sophie hadn't quite got him off, and he'd wanked himself off over my body. Of course, the sight of me, all splattered with his spunk, got Adam's flooding out inside me too…

My hair is naturally thick and dark, so when I let it grow I end up with a real 1970s-style bush! My girlfriend Jane actually quite likes it – she says it soaks up all the sexy, musky smells of my pussy when I'm turned on, and she loves to ruffle and part it with her fingers to expose my wet pink slit.

Before we went on our summer holiday, though, I had a bikini wax so I'd look better in my thong. I loved how smooth and silky my skin felt, and decided to surprise Jane by having a full wax. The skin underneath was pale – in contrast to my tan – which really drew attention to my pussy. When Jane saw the result a couple of days later, she was so turned on, and when she ran her fingertips over it, she just sighed with pleasure.

"My wetness trickled out over my labia"

Seeing her so horny had the same effect on me. I was already juicing with anticipation, and my wetness trickled out over my labia. Jane started licking me, just tonguing my dripping juices to spread them out all over my pale, waxed mound as well as the rest of my pussy area. She's never teased me so much in her life, sucking my labia into her mouth, and all the while I was silently begging her to give my clit the same treatment. If I'd asked her right out, she'd have just tormented me even longer.

"She rammed her tongue up me, circling her fingers around on my clit"

I had to keep my cool as she started tonguing along the sides of my bud, flicking over the top of it, but I nearly exploded when she finally took it – hard and aching – into her mouth. My hole was already tightening, but it opened up when she slipped three fingers right inside me. I don't know if it was the bareness of my skin, but sex had never felt so intense as it did now. She was sucking and pumping away, and the juices were flowing out of my hole, soaking her hand. She took me right up to the edge, then rammed her tongue up me, circling her fingers around on my clit. And she says that when I came it felt like my juices were spurting out of me, my muscles tensed so hard and fast.

I haven't decided what to do about my bush as yet – maybe I'll grow it back to its full glory over the next few months – that way I'll be able to surprise Jane with another wax. Or perhaps she'll want me to have one sooner. Maybe I should tell her I will if she will – if it's sore, I'll lick it better.

Name: Lianne

Age: 30
Marital Status: Divorced

I've always had one hell of a sex drive, and since my divorce I've used it to the max. I go to fetish clubs and sex parties, and I'll try just about anything once.

The other week I went to a private party at someone's house, and got into a scene with a couple. Richard was acting masterful – with Jenny's full consent – and seemed to be getting a kick from frustrating the hell out of her! He'd strut around the party, with her following in his wake, and she'd have to watch while he did whatever he liked with any willing woman who took his fancy.

It seemed she'd even agreed she wouldn't touch herself without permission.

At first I just had a bit of fun watching them, then made it clear I was up for a bit of fun. Richard had a nice thick cock, and I realised I was licking my lips at the thought of taking a suck on it. Instead, he decided he wanted a shag, bending me over and doing me from behind, sort of briskly like his pleasure was all that mattered.

"I could taste my pussy juices on her tongue"

He didn't leave me in suspense, though – a second after he pulled out I heard him click his fingers, and the next thing I knew Jenny was on her knees behind me, her tongue getting busy. She obviously loved the taste of her man's spunk – she was sucking, slurping and tonguing me, and even using a couple of fingers inside my pussy to scoop out all the come he'd shot higher up. Richard moved around in front of me to play with my naked tits – I was wearing a corset which shoved them up and out but left them bare.

He told me he half-wished he'd spunked all over them, but I was happy as I was. Whenever he pulled or pinched on my nipples, I'd feel it right down to my clit, and I'd clench my pussy muscles, sending even more of my spunky juices out into Jenny's mouth.

As she tongue-fucked me, he started rubbing his cock over my tits, getting it hard again, but it wasn't for my benefit. He already had an eye on his next "conquest". Naturally, he started shagging her in front of me – but the sight of them made me more horny than jealous.

Being "dumped" isn't a problem when you know you're pretty much guaranteed your next fuck whenever you want it.

"He started rubbing his cock over my tits"

Anyway, I was getting lost in what Jenny was doing to me – she just carried on eating away, knowing when to pause so I wouldn't come too fast, then finally taking me over the brink. And one of my sexiest memories of that encounter was when she moved up to give me a deep kiss – I could taste my pussy juices on her tongue, tinged with the saltiness of Richard's come.

By the way, the reason Richard wasn't letting Jenny touch herself was because he was "saving" her for a fuck-session with four men later on.

That must have been one hell of an experience for them – especially the guy who fucked her first!

All I miss about my soon-to-be-ex-husband is the shagging, but my current lover – a woman called Anna – is making it easier for me to forget him! We're both lipstick lezzies and Anna's a short curvy blonde who loves dressing up in heels and sexy, feminine clothes – we're still full-on when it comes to fucking, though.

I thought she'd be all gentle and teasing, but she loves taking control – she's into getting kinky and she's always pushing my sexual boundaries as well. Put it like this, I trust her enough that when she suggested a threesome with another woman, I said yes right away.

I'd actually met the other girl, Suzi, a couple of times before – she's well cute, almost like a dark-haired version of Anna. They'd agreed that I should start off as the centre of attention, and I kicked things off with Suzi. We were in my favourite position – I love sitting on a woman's face. There's something about going on top to be licked out – spreading my thighs wide stretches my clit and pussy so the sensations are even more powerful. Suzi knew just how to use her tongue, and all I had to do was ride her face – she was keeping herself happy with a vibrator. Anna was in "tease" mode – I didn't know she was behind me until she started nuzzling my neck, blowing cool air along my hairline, sending shivers down my back. Then I felt something bumping gently against my arse cheeks and I realised she'd strapped on a dildo. The tip was moist – obviously lubed – and she began pressing down on my shoulders, until I leant forward, my face just above Suzi's crotch. Suzi didn't seem to want any licking in return, she was doing okay with her vibrator. Suzi carried on licking my twat, although she'd stop for Anna to tease me with the dildo – sometimes skimming it along my slit, sometimes sliding it deep in my hole, then pulling it out for Suzi to suck on. I breathed in deep then said to Anna, "Will you fuck me up the arse?"

"My clit was throbbing as she sucked it"

I knew how much this would turn her on. We tend to keep anal play as a treat, and I reckoned she'd never have thought I'd agree to it during our first threesome. The truth was, Suzi was so good at sucking my twat, I didn't want her mouth to leave it!

Anal can be a tight fit, and it sometimes takes a couple of goes for Anna to get her dildo up my arse, but I was so focused on what Suzi was doing to me that it slid up in one smooth, slow stroke. My arsehole felt so stretched and full, and Suzi's tongue felt like it was everywhere at once.

My clit was throbbing as she sucked it and my twat was clenching around her fingers as she fucked them in and out. My tits were squashed up against her body and I slipped my hands under so I could play with my own nipples.

My orgasm didn't build – I just started shaking and the next second I was coming so hard I thought I'd pass out, but Suzi never stopped licking me.

I got to watch, half-dazed, as she finished herself off with the vibrator, while Anna chose what we'd play with next…

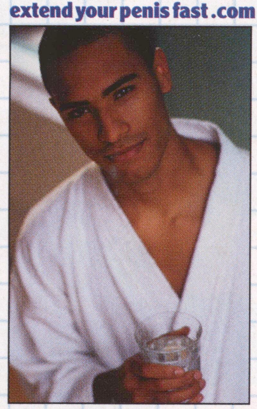
In a recent Durex® Survey 67% Of Women Said They Were Unhappy With Their Lover's Penis Size...

90% Of Men have a 6" Penis. That's Average Size. EXTENSIS® is for Men who aren't happy with being AVERAGE! You Don't want an Average Income, an Average House, an Average Car...So why settle for an Average Penis?

extendyourpenisfast.com



Simply try Extensis for 30 days and if after 30-days you do not experience a minimum of 1" gain in length, simply send the empty bottle back to us and we'll refund you 100% of the cost.

Especially when it is now safe and inexpensive to increase your penis size by up to 41%! The figures don't lie. Money, muscles and looks help, but women want a bigger man! Introducing a NEW Herbal Science Breakthrough that is GUARANTEED to increase your penis size by 1, 2, 3 inches or more in just a few short weeks!

This amazing new product is called Extensis and by simply taking 2 Extensis capsules daily, you can make your penis grow in both length and thickness by a whopping 26% (individual results can vary, 26% is the average). With absolutely no adverse side effects!

Dear Friend, you may not believe us, but we'll make it worthwhile for you to change your mind! In a way that will reward you for the rest of your life. Having a small or average sized penis, being impotent, or having any other sexual dysfunction can destroy a man's psychological well-being. Tens of thousands of men in Europe alone suffer from these types of problems. Our product, Extensis will develop the entire penis, enabling you to have a much larger and thicker penis, with harder, more frequent erections, leading to improved self confidence and quality of life, as well as huge sexual enjoyment for your partner.

How Does Extensis Work? Your penis consists of spongy reservoirs (erectile tissue chambers) called corpora cavernosa. Blood gathers within these chambers to produce an erection when aroused, creating the size your penis currently is. The size of your erection depends on how much blood your body pumps into the erectile tissue chambers. But the amazing thing is that your erectile tissue can be developed to be much larger and stronger, and to also create larger, fuller erections.

Simply put, your penis is extremely unfit, and much smaller than it could be if your erectile tissue chambers were larger and held more blood. Extensis is an all-natural blood flow stimulator that pushes blood into the erectile chambers of your penis during arousal. Its active ingredients act on the penile blood flow and immediately begin to work on these chambers increasing penis length and thickness, giving you the extra inches you have always desired. Extensis works because it relies on a scientifically balanced mixture of botanical and all-natural ingredients that have been used for male virility and potency for decades. It was created through extensive laboratory testing to discover the most potent blend for maximum effectiveness. The majority of users report initial results within 3 to 4 weeks. You may see results sooner, or it may take a bit longer for your body to adjust. Men who followed the Extensis plan for four to five months reported an increase in size of up to 41%, with the average reported increase of an amazing 26%. Extensis will continue to work the longer you use it. Over time as the chambers in the erectile tissue stretch, more and more blood will be forced in, creating further substantial growth in both length and roundness. It is totally herbal and safe, so it has NO adverse side effects.

Try Extensis, and after just a few days, you will start to see and feel the difference in the way your penis hangs and feels when erect.

Furthermore, you're guaranteed to see an increase of ONE FULL INCH in 30 days or you pay nothing! We're so generous with this guarantee because with over a 96% success rate, we're more than confident that it will work for you, like it has for thousands of other delighted users.

Some products on the market offer vacuum pumps to improve erections. They may work to create some small increase in size, but the effect is never more than temporary. Surgery is expensive, painful, can lead to infection and scarring and doesn't guarantee results. Extensis requires no devices and no surgery to work. Some ask about its similarity to Viagra®. The main benefit of Extensis is added size. However, Extensis users also report harder, more frequent erections, similar to results some men experience with Viagra®. Unlike Viagra®, however, non-prescription Extensis is an all-natural product. Another positive side-effect is that your penis will be more sensitive, leading you to enjoy intercourse more.

How long should I take Extensis? Take it until you get to 8" or 9". After you get to this size, we advise you stop taking it. Any longer would be too large for most women to handle.

Here's What You Can Expect: Week 1-3: You will experience greater and longer lasting erections and a noticeable increase in thickness.

Week 4-8: Your penis will have grown in length and will possess much more thickness in both erect and flaccid states.

Week 9+: Your penis will have taken on a new body, not just longer and thicker, but much harder and healthier.

Quality Assurance: Extensis is a proprietary blend of 100% safe and natural ingredients. Each bottle of Extensis is packaged to meet the highest standards and is backed by our unbeatable Customer Satisfaction Guarantee.

100% Natural & Safe: Extensis will: Strengthen and harden your erections like a length of STEEL PIPE! • Develop your PC muscle to form a truly "muscular" looking penis that will impress and arouse your lover. • Enlarge your penis 1-4 inches or more. • Intensify your orgasms. • Achieve more powerful thrusting ability. • Last as long as you want without drugs. • Achieve ROCK HARD erections any time you want. • Increase your penis sensitivity, enhancing pleasure. • Safely and permanently enhance your penis size.

Our Unconditional Guarantee. With a 96% success rate, we are more than confident that it will work for you. Simply try Extensis for 30-days and if after 30-days you do not experience a minimum of 1" gain in length, simply send the empty bottle back to us and we'll refund you 100% of the cost. With our "No Grow - No Pay" guarantee, our product HAS TO work for you, or we'll lose money on every sale. A month from now you could be enjoying all the benefits of a larger, thicker penis, or be exactly the same as you are now. With our no nonsense guarantee, we will not allow you to take any risk. Order totally risk free today, and let Extensis work for you!

STEROID ALTERNATIVE

Animal Myostatin studies show 200-300% increase in muscle mass & decreased bodyfat

Earlier this year at John Hopkins University in the USA, clinical trials on mice produced astounding results with HEALTHY MICE gaining 2 to 3 times more muscle than their 'ordinary' counterparts.

Scientists studying what made these animals hold so much more muscle mass discovered the answer was MYOSTATIN. Or rather the LACK of Myostatin. The Myostatin gene produces a protein found in all our bodies whose only purpose, is at a certain point to "turn off" muscle growth. Scientists found that instead, by "turning off" the Myostatin gene they could *literally lift genetic barriers to muscle growth*. Blocking or decreasing Myostatin also decreases body-fat levels. The clinical research on animals showed that decreases in Myostatin resulted in upto a 70% reduction of body-fat levels! So by controlling Myostatin, not only could you pack on new muscle mass, but lose unsightly body fat as well.

Ripfast's stunning NEW Testo Intelligence Stack SS1 now contains MYANABOL™ and is the most powerful Myostatin inhibitor supplement available in the world.The MYANABOL™ in Testo Intelligence Stack SS1 actually "binds" myostatin in your body. Neutralising the effect of myostatin on muscle cells could literally lead to REMOVAL OF MUSCLE MASS LIMITATIONS! Testo Intillegence Stack SS1 with Myanabol:

- ***Allows you to gain muscle mass that would be impossible without this technology.***
- ***If you've a hard gainer. It is ideal to kick-start muscle growth.***
- ***It's perfect for already well built athletes who have hit a plateau and stopped growing to kick-start BRAND NEW muscle growth.*** (For indepth data on all ingredients visit ripfast.com or see the RIPFAST Product Guide). Testo Intelligence Stack has the ability to NEUTRALISE MYOSTATIN AND increase the body's level of all five anabolic hormones: (1) Testosterone; (2) Human Growth Hormone (hGH); Insulin; (3) Insulin-Like Growth Factor 1 (IGF-1) & Luteinizing Hormone (LH) It includes: MYANABOL™ (Cystoseira Canariensis Complex) PLUS! Tribulus Terrestris, 20-Hydroxyecdysone (Ecdysterone), Methoxyisoflavone,7-isopropoxyisoflavone (Ipriflavone), L-Arginine Pyroglutamate & Lysine HCI, Alpha Lipoic Acid, Zinc, Magnesium, Chrysin & an Anabolic Multi-Nutrient Stack

Testo Intelligence Stack SS1 with Myanabol literally allows the athlete to overcome the main obstacle in building a superb body - genetics! NOTHING ON EARTH COMPARES.

Production is complicated and supplies are limited. Kick start your muscle growth, FAST with Testo SS1. Order Today!

Advanced Techniques for Daring Lovers

Modern day Casanovas, and narrow-minded cynics, please stop reading now. For the rest of us a FACT: OVER 99% of women admit to having faked an orgasm, several, if not most times, in their life. Has yours?...You probably don't know, and maybe never will. The next five minutes could literally transform your life - leading to the best £40 that you'll ever spend. Because you could end up being known as the guy who gives orgasms - every time. No financial, business or creative high can top this compliment. When you've learnt how you'll know what we're talking about!

WARNING: Due to the highly explicit sexual content,this video-book set is only available to ADULTS over 18 years. We are completely serious when we say that the women in your life will never, ever want to leave you!

"How to take a woman to orgasm every time - and have her ache for more" is the title of an explosive new video & book set by leading American Author Cheryl Kramer. You won't learn how to attract females, the art of conversation, whether or not you should talk about religion or politics on a first date or what scent to wear. There are a million sex manuals (full of waffle) on the market that do this. It comprehensively covers one topic - how to take a woman to orgasm. You may say this sounds too clinical, too methodical, and perhaps the bedroom isn't the place for such "rules". Rubbish! The surefire techniques taught are so simple, yet staggeringly effective, after learning them you can add your own improvisational extras. Fast, highly effective methods of preventing premature ejaculation are also explained. The book and video clearly explain how to recognise and deliver not one but several types of intensely explosive orgasms in your lover (including multiple orgasm). Any heterosexual male who truly values the woman in his life cannot be without this essential investment. Although the emphasis is focused on women. This new edition also contains a chapter on how men themselves can achieve multiple orgasm (now a scientifically proven phenomenon). Read it to believe it. Another new chapter deals with "The G-Spot", giving full details on this elusive, and (until now), mysterious female "hot spot". The amazing eye opening video shows both lesbian and straight couples demonstrating many,many orgasm techniques (too many to list), including female G-Spot ejaculation.It also includes very explicit close-ups, and is highly erotic as well as instructive. Most men are definitely inept lovers, but through no fault of their own - it feels good to him, so he reckons it feels good to her...but it doesn't! You can't blame him, how is he to know any better? The girlfriends aren't much help. So the men keep pushing, and the women keep faking. This is your chance to be different from "most men".

Good lovers are so rare most women don't know what one is. Just the fact that you are reading this shows that you are willing to learn how to give her the best love she's ever had (this is no exaggeration).

After reading this book, and studying the video you'll be a different person.

You'll wonder how you ever did without it! Sex-wise, we honestly believe this is the best investment you will ever make. Cheryl's method has made thousands of couples very, very happy. Here are some excerpts:

– "Your method saved my marriage." - K.K. New York.
– "You have given me a power I never thought I'd possess." - L.K. London.
– "I have the power to drive my woman totally out of her mind - what a turn on!" - J.S. Leeds.
– "I was unhappy with my girlfriend's lack of responsiveness, sexually, after applying your technique she's now a total maniac in bed. How can I thank you enough?" - J.N. Herts.
– "You changed my life! I only wish all couples had access to this." - M.S. Norfolk.

INCLUDES EXTREMELY SEXUALLY EXPLICIT EDUCATIONAL VIDEO THAT EXPLAINS EVERYTHING!

And there are thousands more! When you learn to give your lover an orgasm - it is the greatest gift of love that you can give (not to mention the immeasurable pleasure and high self esteem it will give you) and if you can do this every time you make love, she will be yours forever. And once you've seen a real orgasm in a woman, you'll know the difference between faking it and the real thing. Order this essential video-book set today, we honestly believe sex-wise, you'll never look back, it'll be the best investment you've ever made. Even if you are reading this in an old publication you can still order with confidence, we are well established distributors. Prices and delivery times will be the same. Please send us your name and address, stating," Cheryl Kramer video-book set", along with a cheque for £39.99 + £5 for postage & plain packaging = £44.99 (overseas orders: please add £5 extra = £49.99) payable to THE CHERI ORCHARD. To order by credit card, please enclose your card number, expiry date & signature, or call our 24 hour credit card hotline below. (Please note: there is a £1.50 surcharge on all credit card orders). Please note: For order accuracy it is essential that you also state the name and cover date of the magazine from which you are ordering. Please allow upto 21 days for delivery. For Express 7 day delivery, please use your credit card, or cash. For cash please use registered mail only, and no coins. Please send to:

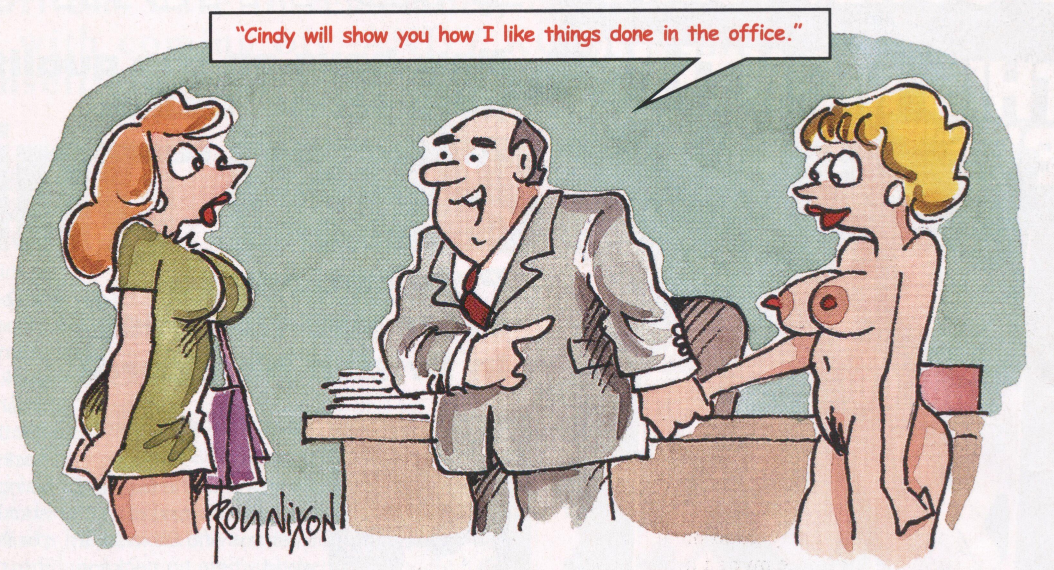
KEEPING UP APPEARANCES

It was excellent to see the photoshoot of Jane and Simone (Vol 38 No. 7) – they are stunning and very welcome. I'm privileged to own quite a number of older issues of Mayfair and I'm pleased to see you retaining this very high standard over the years.

Graham, Wales

Flattery will get you nowhere, Graham. Unless you include a £10 and then we'll consider you a friend for life!



"Cindy will show you how I like things done in the office."
RON NIXON

lovely pair of five inch heels, a rubber mini-skirt and a clingy see-through top over a black lacy push-up bra that made my ample tits jut out like those drawings of girls you see in newspaper cartoons. I stumbled through the debris-littered hallway and was immediately hit by the musty, damp smell. Martin stood in the doorway, watching as I tottered ungainly into the dank interior.

"Oi, come on, there might be some old tramp hanging about or something" I said, peering through the gloom into what must have been the living room.

"He can fuck your arse after me," Martin laughed and slowly followed. Looking around I could see Martin's dick bulging against his jeans. The thought of watching me with a dirty tramp's prick in my arse had obviously got his imagination running wild.

Inside the room was a disgustingly filthy sofa, covered with dust, stains, and bits of plaster from the half-collapsed ceiling.

"Jets of spunk cascaded into my love tunnel"

"You'd better get me in the mood then," I chuckled and leaned over the threadbare arm of the settee, my rubber clad bum raised in the air towards him. I felt Martin's hands prise the rubber up over my buttocks and spread the cheeks.

I wasn't wearing any knickers and knew he was relishing the view of my puckered bumhole and shaven slit. My whole body tensed as I felt his tongue slide down the crack of my rear until the tip rested against my tight little hole. Gripping my thighs he pulled me onto his face, thrusting his saliva-coated tongue as far up my arse as he could, his chin grinding against my pussy lips, causing them to part. While he jammed my butt, his fingers worked their way into my twat and it felt fantastic as he began to rub my clit.

Suddenly, Martin pulled away and I knew he was about to stick his dick in one hole or the other. He chose my arse and the force of his entry pushed me over the arm of the sofa until I was sprawled on the filthy, soiled furniture. I tried to raise myself up but Martin was pumping into my bum so hard I was squashed into the damp, stinking material. Strangely, this began to turn me on and I stuck a couple of fingers into my gash as I writhed beneath his pistoning cock. My tits pressed against the plaster-strewn mess and I came over my hand with a yell. Martin dragged his meat from my arse with an obscene slurping sound and leant back against the wall of the lounge. I crawled deliberately across the floor towards him, ripping my sheer black nylons on the junk littering the floor. I stared into his eyes and slowly licked my bright red lips as I headed for his twitching, rock hard dick. By now, my stockings were ripped to shreds, my see-through blouse had a few tears and I was covered in plaster dust.

"Suck it," Martin asked as I positioned myself so the tip of his knob was an inch from my mouth. I love it when Martin talks dirty and I grabbed the base of his prick and stuffed the entire length into my mouth until it banged against my throat.

"Harder" he moaned, "Faster!" Martin held me tight as he fucked my mouth like a maniac.

I eased my tits free and played with the nipples as I knew that was guaranteed to fire him up even more. After a while I could tell he was nearing orgasm as his balls tightened and his thick shaft began to pulse in my mouth. Yanking his dick free, he shoved me backwards onto the dirty floor, dragged my legs apart and thrust his glistening tool straight up my sodden cunt. Bits of rubble stuck into my buttocks and back as he hammered away, our writhing bodies kicking up a cloud of dust as we screwed. He lasted only a few seconds more before I felt his dick spasm deep inside and jets of spunk cascaded into my love tunnel.

Later, Martin fucked me on an old bed upstairs and I sucked him off on the broken stairs. The fact that we were both covered in dirt and dust had made the whole fuck session seem all the more horny. We have been back a few times and have screwed in a disused factory. All we need now is a willing tramp or two!

SCENE FROM MAYFAIR

There's never a boring moment when the Scene newshounds are on the sniff. Let's see what goodies lie on the stinking trail this month...

CRAZY FOR YOU

The 'arty' photo book *Crazy Babes* has a rather misleading title, because as far as we can tell none of naked models show any signs of craziness at all. Oh, hang on, one of them is holding a knife. Well, apart from that, the majority of photos are of girls lounging around not wearing very much, which is all very good nude fun but not particularly different to the myriad other 'art porn' books currently out there. Still, if it tickles your fancy, *Crazy Babes* is now on sale on the Goliath label for £17.99.

HOME IMPROVEMENT

Getting hold of decent porno isn't easy, especially if your mates have particularly naff taste. And as for going to a sex shop – is it really worth the train fare to London just to get some pink vids? However, the answer to getting porn direct to your door is now here thanks to Private and their new service www.privateathome.com, a rental service which, for £19.99 a month, allows you access to their vast DVD catalogue. That's a lot of films. With no subscription contract, no hidden fees, and no limit on the amount of DVDs you order; you can rent the best hardcore flicks available and have them delivered direct to your door. And when you're done, send them back, and order some more! Head on over to **www.privateathome.com** for the full info.

HERE COMES THE FILTH

Hot Rod Productions are at it again with three new dastardly dirty DVD releases; *The Real Thing*, *I Dream of Jenna*, and *The Fuck Sluts*. Packed with pussy-pounding action, jizz-flying debauchery and even the odd moment of sensual kissing, each flick has enough porno to last you for years. Well, at least until the next Hot Rod releases come along. To get your copies take yourself to **www.r18online.co.uk**. Yum!

The Real Thing

ON THE BENCH

There's many ways to become a pop star, but weirdly, writing to us isn't usually one of them. However, this hasn't stopped *Leneghan's Bench* from having a go, as they attempt to scale the dizzy heights of musical stardom with their album *No Success Like Failure*. The tracks sound good enough to us, but then again, we're loathed by most people so that's hardly a seal of approval. Still, we wish *Leneghan's Bench* all the best, and suggest you readers look out for it in the shops. And if you do ever make it big, fellas, you fucking owe us!

We like classy girls here at *Mayfair* (well, classy girls who'll take their kit off at least), which is why the delectable Nicky fits in just so damn well. Our cover-girl back in Volume 38 Number 3, the leggy blonde dancer has proved a success not only with *Mayfair* fans but with the males in her local area. "It didn't take long for word to get around that I was in a top-shelf mag," she told us. "Plenty of men in my town seem to recognise me now, and I get lots of wolf whistles when I walk out of the house. But then again, the neighbours have got the builders in so that probably explains that!" We can't blame them either. We'd whistle too if we could close our jaws for a second.

Upset that another issue of the best men's mag in town has come to an end? We know, it's a harsh world, but there's no need to despair. Because as you're reading this, we're already busying ourselves on the next super-hot issue of Mayfair, and as you can tell from these sneaky pics, we've another hot line-up of incredible models to ogle. There's the shapely figure of Becky, the pant-pulling antics of Kate, pretty brunette Penny who'll bend over to do anything, and there's double trouble in the sexy guise of Amanda and Stella, two girls who really know how to put on a show! It's going to be a great one… so don't miss it!
